Sir,

The following are my comments on the aforesaid paper:

The TRAI committed to eliminate IUCs w.e.f. 01.01.2020. But in a sudden turn of events, for some reason, the TRAI has decided to reconsider, in a very peculiar situation for investors, who are already having a hard time reading conflicting signals coming from the Indian economy.

In addition to the above, as has been seen by Jio's recent move of charging its users 6p/min for making calls to non-Jio mobile numbers, this move is ultimately hurting the biggest and most valuable-yet-vulnerable stakeholder of the industry - the consumer.

Therefore, you are requested to not dither from your earlier commitment of eliminating IUCs w.e.f. 01.01.2020, in the interest of the consumers as well as the service providers.

Thank you.
