

Dear Sir/Madam,

Here are my views :

Answer 1- They are not as they are not presented with full information, and therefore they are not in a position to understand and/or use that information to their advantage. Beside the information provided to consumers is complex, not easy to interpret and/or set out in number of different places, which makes it difficult to interpret and/or compare

Answer 2. No

Answer 3- No comments

Answer 4 : TRAI may explore and decide.

Answer 5- Dominance is ability to influence and should be redefined accordingly

Answer 6 . . TRAI to decide after undertaking study

Answer 7- Not below the short term incremental variable cost .

Answer 8 . The bundling of services and the deficient presentation of information by service providers may be stopped. Unauthorized or deceptive charges be investigated by TRAI on its own by some mechanism. Informing about benchmarking standards of quality of service to be offered under selected tariff plan should be made known to customers and should be ensured .

Regards

Devender
