Subject: Request for termination of IUC Charges.

Dear Sir,

With due respect we want to express our concerns on the move of Interconnect Usage Charges (IUC) policies being changed which could result in extra burden to customers.

We express our warm gratitude for TRAI's efforts to bring Indian Telecom Industry to new heights and work for the customers benefit and has revolutionized the telecom sector in that last decades.

As there is a concern over the Change in IUC polies, which could adversely affect the ongoing competition in the telecom industry and as a result the customer benefits will get hampered. Hence we request you to please review your decision and abolish the IUC charges.

Yours Sincerely

Er. Surya Prakash
