

From: Harish Yadav <yadavharish92@gmail.com>

sir india have lowest minimum broadband speed in asia ,even pakistan & bangladesh have 4 mbps minimum broadband , u.s.a have 25 mbps mininum broadband speed, indian ISP can give minimum 2 mbps broadband speed. for modi "digital india" programme u have to increase minimum brodband speed.

Thank you once again.

Warm regards,

harish yadav
